OUR BRANDS, SELECTED TO PERFORM

As a global leading provider for photovoltaic (PV) module and smart energy solutions, Trina Solar delivers PV products, applications and services to promote global sustainable development. Trina's photovoltaic panels and solar system components provide clean, affordable and reliable energy to homes, businesses and power plants around the world.

Suntech is recognized as a prominent photovoltaic manufacturer globally, established in 2001. The company is dedicated to the research and development (R&D) and production of crystalline silicon solar cells and modules. Over the past 23 years, Suntech has expanded its sales network to over 100 countries and regions worldwide, with cumulative shipments surpassing 50 GW1.

OUR BRANDS

BYD has developed a battery storage line, which is suitable for any application. The modular LV and HV solutions fit any residential and commercial application or off grid solution.

Advancing a sustainable future for all. Founded in 2006, Enphase transformed the solar industry with our revolutionary microinverter technology which turns sunlight into a safe, reliable, resilient, and scalable source of energy to power our lives. Today, our intelligent microinverters work with virtually every solar panel made.

Clenergy is a high-tech enterprise in the global solar PV industry. Clenergy specialize in the development, manufacturing, and engineering of solar mounting gear for your next renewable energy site.

GoodWe is a world-leading PV inverter and energy storage solutions manufacturer, with an accumulative delivery of two million inverters and installation of 16 GW in more than 80 countries.

ABOUT US

What We Do

As a proud New Zealand owned business, J. A. Russell Ltd and Radcliffe Electrical has been a trusted name to the electrical wholesale and distribution industry since 1951.

The J. A. Russell Ltd and Radcliffe Electrical Solar team specializes in world class solar power solutions to trade customers. We offer innovative solar power products to suit a wide range of applications from small home systems to large commercial roof top and ground mount projects. Products are available through any of our 79 branches nationwide.

Visit one of our locations and get in touch with one of our experienced Solar Technicians with skills and practical up to date industry knowledge to help you make the right selection for your project.

If you would like to find out more about how we can serve your solar power needs, get in touch today.
